That is to say...

The United States of America is multi-ethnic and cultural state and there are as many ways to interpret an expression or a description as various groups.

6. Summary

6. Summary

1. Personally, political correctness is somewhat too sensitive, but we must make sure where any land mine is buried. "I am awfully sorry, but I did not know it." never works in some situations, so it is wiser for us to keep up with this kind of affairs just in case.
2. The more developed technology becomes, the more likely new words is to show up. If we fail to catch up a discussion, it would be fatal at work. Even in small talks, we had better be familiar with worldwide political affairs. It is also wiser for us to keep up with this kind of matters to maximise the intersection of topics.

The background of the slide features a faded, artistic rendering of the Statue of Liberty. The statue is positioned on the left side, holding a torch aloft in its right hand and a tablet in its left. Behind the statue, a large American flag with many stars is depicted waving. The background also includes a hazy view of the New York City skyline, with various skyscrapers visible under a light sky. The overall tone is patriotic and formal.
